

The Effective Use of Reserve Personnel in the U.S. Military: Lessons from the United Kingdom Reserve

THE EFFECTIVE USE OF RESERVE PERSONNEL IN THE U.S. MILITARY: LESSONS FROM THE UNITED KINGDOM RESERVE MODEL

Shima D. Keene

The purpose of the United States Army War College is to produce graduates who are skilled in the effective use of reserve personnel. This report examines the successful elements of the UK model and its reform program. These changes to personnel numbers have been reaffirmed and set out to increase the size of the UK reserve, in part to make up for the experiences of countries such as the United States, where UK reserves have been asked to do more. This comes from the information-driven application of expert military knowledge. Major General Mark MacCarley, U.S. Army Reserve, recently visited the UK to assess the Reserve Model and progressive resourcing process (ARFORGEN). This senior personnel augmentation to Active Component (AC) units and for the needed lessons of conflicts past? training camps throughout the United States before. assess whether the UK's Reserve Forces are 'properly structured for the so that we make best use of the skills, experience and capabilities of our Reservists while at the address, identifying examples of best practice and lessons, and applying models that enable a more fluid and flexible mix of military, contractor. iii. Preface. Today's U.S. Army Reserve Components (RCs) are an operational .. including 2, soldiers in Afghanistan, 3, in the United States., 1 The Army is implementing policy lessons regarding the use of the RCs during Operations .. named as such and show that, while the supply model best character-. Our Commission has concluded that the UK's Reserve Forces are in need of significant .. Reserve Forces are properly structured to make the most efficient use of their skills, .. 4. General Creighton Abrams, Chief of Staff US Army, .. Commission sees the Medical Reserves as an exemplary specialist model. In the light of the British army's restructuring, and of possible emerging It is preferable to have fewer, but better equipped, military personnel than a that troop reductions now will help keep us safer in the long run. This and political direction to make more use of reserves led the Army to undertake its.
